PROFESSIONAL SUMMARY

Backend-focused BCA student with hands-on experience in Python, Flask, REST API development, and SQL. Skilled in building and deploying scalable web applications with real-world use cases. Passionate about problem-solving, database integration, and developing efficient backend systems. Seeking a Web Developer Internship or entry-level role.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++
Web Technologies: HTML, CSS, JavaScript
Backend Development: Flask, REST APIs, API Integration
Database: SQL
Tools & Platforms: Git, GitHub, VS Code, Firebase, Render
Concepts: CRUD Operations, Database Integration, JSON Handling

PROJECTS

SecureWay – Smart Safety Web Application

<https://safesafar-e6efc.web.app>

Developed a safety-focused web application with real-time route tracking and emergency support features
Integrated map APIs for live location tracking and navigation
Designed a responsive and user-friendly interface focused on real-world usability

EduShield – Face Detection Web Application

<https://face-detection-1-ztyt.onrender.com>

Built a Flask-based web application using face detection technology
Integrated external APIs to analyze user expressions and provide personalized study tips
Improved user engagement by combining AI-based detection with productivity features

SmartWealth – Personal Finance Web Application

<https://smartwealth1.onrender.com/>

<https://github.com/rajni-8285>

Developed a Flask-based finance web application to manage and visualize financial data
Implemented backend logic with SQL database integration
Enabled users to track and analyze expenses efficiently

InnerFeelings – Women Wellness Web Application

<https://menstrual-health.onrender.com/>

<https://github.com/rajni-8285>

Built a full-stack web application using Flask and SQL for women's health support
Developed REST APIs and handled user data securely
Integrated AI API to generate personalized responses dynamically

Tic Tac Toe Game (C Language)

Developed a console-based game using C
Implemented game logic, loops, and win-condition checks
Strengthened understanding of core programming concepts

EDUCATION

Bachelor of Computer Applications (BCA)

Avviare Educational Hub (Affiliated with Glocal University)

2024 – 2027

Senior Secondary (12th), UP Board – 83% (2024)

Secondary (10th), UP Board – 91% (2022)

ACHIEVEMENTS

Qualified TCS NQT Cognitive with 74.43%
Secured 9.82 CGPA in recent BCA examinations
Achieved 9.67 CGPA in 2nd semester
Awarded Best Welfare Idea for InnerFeelings project (Lucknow-level)
Received Best Innovation Idea for EduShield project (College level)
Recognized as Future Tech Leader for SecureWay project

SOFT SKILLS

Communication
Team Collaboration
Leadership (Team Lead Experience)
Problem-Solving

INTERESTS

Backend Development
Web Application Development
Database Management Systems
