CARRER OBJECTIVE

BCA student (2024–2027) seeking a Web Developer internship or entry-level role where I can apply my knowledge of backend development and web technologies to build scalable and user-friendly applications. Passionate about problem-solving, API development, and creating efficient digital solutions while continuously learning new technologies.

TECHNICAL SKILL

Programming Languages: Python (Intermediate), C (Basic), C++ (Basic) ,java
Web Technologies: HTML, CSS, JavaScript (Basic)
Databases: SQL (Basic)
Tools & Platforms: GitHub, MS Excel (Advanced), Code: Blocks , VS code, firebase,canva
Concepts: APIs, Backend Development, Database Integration

EDUCATION

Bachelor of Computer Applications (BCA) –2024-2027 batch ,Avviare Educational Hub, affiliated with Glocal University, Saharanpur 2023 – Present
Senior Secondary (12th), UP Board | 2024 | 83%
Secondary (10th), UP Board | 2022 | 91%

PROJECTS

InnerFeelings – Women Wellness Web App

Built a full-stack web application using Flask and SQL for women’s health support.
Developed backend APIs and managed user data with database integration.
Integrated Gemini API to generate personalized responses dynamically.

GitHub: <https://github.com/rajni-8285>

SecureWay – Smart Safety Web Application

Designed a safety-focused web app with features like route tracking and emergency support.
Integrated maps and APIs for real-time location and navigation functionality.
Focused on user safety, responsive UI, and real-world usability.
Hosting URL: <https://safesafar-e6efc.web.app>

SmartWealth – Personal Finance Web Application

Developed a finance-focused web application to manage and visualize basic financial data
Implemented backend logic using Flask and database operations using SQL
Deployed on Render for public access
Live: <https://smartwealth1.onrender.com/>
GitHub: <https://github.com/rajni-8285>

Traffic Management System

C++
Implemented traffic flow logic using conditional statements and timing-based rules

Tic Tac Toe Game

Developed a console-based game using C language.
Implemented game logic and win-condition checks.
Improved understanding of loops, conditions, and user input handling.

ACHIEVEMENTS

Qualified TCS NQT Cognitive(74.43%)
Secured 9.82 CGPA in recent university examinations (BCA)
Achieved 9.67 CGPA in Second -semester BCA
Awarded Best Welfare Idea for InnerFeelings project at Lucknow-level evaluation
Received Best Innovation Idea (College Level) for EduShield project
Awarded future tech leader award for SecureWay project

SOFT SKILLS

Communication skills
Good in arts
Team collaboration
Leadership (college-level team lead experience)

INTERESTS

Backend development
Web Application Development
Database Management System
